

ENVOYS MEETING
TO DECIDE COURSE
IN CHINESE CRISISA Council Of Ambassadors
Representing All Great
Powers In Session.TO PRESENT JOINT
SET OF DEMANDSImmediate Release Of The
Prisoners Expected To
Be Ultimatum.

Washington, May 8.—A council of ambassadors and ministers, representing all the great powers, is meeting in Peking today to decide upon a course of action in the Chinese crisis, brought about by the robbing and plundering of foreign travelers on the Peking-Shanghai express, it was announced at the state department.

Joint international action by the powers appears assured.

The United States is represented in the council by Dr. Jacob Gould Schurman, the American minister, whose over night report to Washington emphasized the seriousness with which the general situation in China is regarded by the ambassadors of the foreign governments.

The formal demand that the Peking government immediately produce the required ransom money estimated at from 1,000,000 to 2,000,000 or convey punitive steps at once was conveyed to the Chinese foreign office this morning by Dr. Batalha De Freitas, the Portuguese minister, who as dean of the diplomatic corps is spokesman for the powers in matters of joint action.

Secretary of State Hughes made a full report on the Chinese situation to the cabinet meeting at the White House today and after considerable discussion it was decided to await developments before deciding upon any drastic action.

Will Frame Joint Demand

The expectation prevails here that the council of diplomats will frame a joint set of demands upon the Peking government to effect the immediate release of the prisoners held by the bandits, and set a time limit for this to be accomplished.

The penalty for failure on the part of the Chinese government will be punitive action on the part of the powers with the troops now available there, it is believed.

The ambassadors already have informed the Peking government that it will be expected to furnish the ransom demanded by the bandits for the release of the Americans.

The action of the great powers thus constitutes virtually an ultimatum to Peking, the exact language and its method of presentation being left to the diplomatic discretion of the ambassadors and ministers concerned.

The three most interested nations are United States, Great Britain and Italy, natives of these powers being among those held captive. It is understood, however, that the diplomatic representatives of the other powers, France, Japan and the Netherlands, are co-operating.

Fourteen men including some Americans, among whom are probably Maj. Robert A. Allen and Maj. Rowland W. Pinger, American officers, are still held by the bandits to date, according to latest advices to the state department.

Dr. Schurman's despatches to the department today brought few additional details of the outrage, but conveyed the information that Miss Lucy Aldrich, sister of Mrs. John D. Rockefeller Jr., is safe at Tsinan, together with her maid, and Miss Edith M. Schonberg, of Naugatuck, Conn.

East Palestine, May 8.—County Superintendent of Schools J. W. Moore last night was elected superintendent of the East Palestine schools for a two-year term, beginning with the next school term.

He will succeed A. D. Ladd, who tendered his resignation recently, effective at the end of the present school year. Mr. Ladd served as superintendent of the East Palestine schools for ten years.

The school board last night also decided to hold a nine-month term next year. This year the school term was of only eight months' duration, due to low finances.

The board also authorized the acceptance of the bid of Fred, Elliott and Harrison of Cincinnati for the \$95,000 in school bonds, the issuance of which was approved at a special election a few weeks ago. The money will be used to erect a new 12-room school building.

DRY AGENT FINED

DRUNKEN BRAWLGets Drunk With Prisoner
Then Beats Him, Leetonia Report Says.

William M. Martin of East Liverpool, representing himself to be a prohibition law enforcement officer, was fined \$100 and costs on a charge of drunkenness and raising a disturbance and Joe Dobridge, Leetonia was fined \$35 and costs for raising a disturbance and being drunk, in Mayor Hoffman's court in Leetonia Monday afternoon following an alleged drunken escapade Sunday in Leetonia.

Martin, who wore an official badge and carried a gun, posed as working with East Palestine officers. It is said the East Palestine officers, in whose employ he had been, had discharged him.

Last Thursday Martin went to Leetonia and searched the home of Joe Dobridge but found no liquor.

Martin returned Sunday to Leetonia and went to the home of Dobridge where a dinner was being given to celebrate the christening of one of the Dobridge children. Martin it is said, asked for whisky and was told by Dobridge that he did not have any. Martin took Dobridge down town, they bought some cigarettes and are alleged to have "filled up" on some kind of beverage that made them drunk.

The pair got in Martin's car and he started to drive to East Palestine as Martin was supposed to be working under East Palestine officers. Dobridge jumped out of the car and was pursued by Martin who overtook him and tried to force him into the car. The alleged drunken brawl followed in which Martin beat Dobridge with his mace. It is reported 150 people were attracted to the scene.

Deputy W. S. Groner, who had been called, prevented Martin from escaping. The men were taken to Mayor Hoffman's court for a hearing, which began at 10 a. m. Monday and continue until 8 p. m.

An increase of \$300 annually in his salary was refused by Supt. J. S. Alan. He declared that he did not think the board was in a position at this time to grant him an increase of that kind. The board later decided to increase the salary \$100 yearly for the next three years.

One change in the school curriculum was announced by Supt. Alan to conform with a new state law which requires that physical education be taught in each of the four high school years. A period of 45 minutes will be allowed for this work in the future.

Grand Jury In Murder Probe.

Akron, May 8.—Working under a veil of secrecy Monday night, Akron detectives and two state attorneys from Chicago virtually kidnapped Joseph Allan Mills, 20, former Northwestern university student arrested here yesterday in connection with the investigation into the death of Leighton Mount, a freshman of the college, who mysteriously disappeared in 1921 after a class rush between freshmen and sophomores. Mount's body was found last week beneath a pier at Evanston, Ill., and there is a suspicion that he may have been killed during the class fight.

The detectives, attorneys and Mills, it is believed, are on their way to Chicago, where Mills will testify before the grand jury in connection with the alleged killing and hiding of the body of Mount.

The arrest of Mills in Akron, hunted for two years in connection with the case, furnished the recent sensation of the mystery of Mount's disappearance.

While three Chicago newspaper men, here to get a first-hand story from Mills, waited outside the office of Harry Welch, chief of detectives, the officers maneuvered cleverly and slipped their prisoner away from the city jail and out of sight of interviewers.

The two Chicago attorneys, Louis Blumenthal and John Sbarbaro, are (Continued on fifth page.)

Also Dismissed.

A verdict of not guilty was returned late Monday afternoon by Mayor John W. Post in the case of Teofil Andrei, operator of a Broadway soft drink establishment known as the "power house," who was charged by state prohibition inspectors with possession of liquor.

Teofil was arrested on April 11 by Inspectors Frank J. Mullen, C. D. Clark and C. Carrothers of Youngstown. A quart milk bottle was sealed as evidence at the time of his arrest. The state charged that Anna Andrei, a sister of Teofil, had used a quantity of whisky from the milk bottle into a sink in the establishment, after being warned by her brother that the state officers were coming in to search the place.

The hearing developed into a hard fought legal battle and lasted three hours. Andrei was represented by Atty. J. L. Hilton of Canton, district counsel for the Anti-Saloon League of Ohio.

Seven witnesses were placed on the stand. Two of these were Inspectors Mullen and Clark. They testified that they had accosted Andrei in front of his establishment and that they informed him of their intention of searching the place.

After entering the establishment, the officers declared that Andrei had warned his sister of the presence of the officers and this was one of the most contested points of the hearing. On the stand Andrei declared that he had merely informed his wife of his return from an errand but the officers declared that he was warning them to destroy evidence.

Four defense witnesses testified that Andrei had informed his wife of his return from the errand. The contention of the officers was that they had secured the milk bottle after the liquor had been emptied and that at that time the odor of whisky was still in evidence. This the defense denied, setting up the allegation that the bottle had been used for dipping water from the sink into a tub of water nearby.

Denies Motion To Dismiss

Before submitting testimony, Atty. McCarthy moved that the case be dismissed for lack of evidence. This motion was over ruled by Mayor Post and the defense then introduced George Bodinara, Anna Andrei, Mary Shuler, Mrs. Mary Andrei and Teofil Andrei as witnesses.

In his closing argument Atty. McCarthy contended that the affidavit charged Andrei with illegal possession and that both Mullen and Clark had testified on the stand that the bottle had contained no whisky when they seized it and that therefore there was no evidence to support the claim of the state in the affidavit for arrest.

Atty. Hilton announced that he would not appeal the case from Mayor Post's court.

The charge of disorderly conduct preferred by Miss Anna Andrei against Inspector Frank Mullen was dropped by the former at the conclusion of the trial.

Mullen was charged with having used profane language during the search of the Andrei establishment.

Given Freedom.

John Altean, proprietor of a soft drink establishment at 255 Broadway, who was arrested on Saturday on a charge of illegally possessing intoxicating liquor, Monday night changed his plea from not guilty to guilty and was fined \$300 and costs by Mayor Albert W. Ferren. Altean paid and was released from the East Palestine jail.

Altean was arrested by Constable Ritchey and turned over to the East Palestine officials. According to Ritchey, when he entered Altean's place of business to make the raid, Altean broke a bottle which contained whisky. The constable, it is said, ran to the spot where the bottle had been broken and "sopped up" in his handkerchief enough of the evidence to secure conviction.

BERG'S CASE DEPENDS
ON ANALYSIS REPORTFerren Says Berg Will Be
Treated Same As Any
Other Prisoner.

Samples of wine seized Monday at the home of County Commissioner Conrad Berg in Leetonia by Dr. S. E. Conrad, prohibition officer working out of Mayor A. W. Ferren's court at East Palestine, have been sent to Columbus for analysis. Fourteen samples were taken, but none of them were of whisky although it is said some whisky was found in the Berg home.

If the samples are found to be intoxicating, Berg will be arrested on a charge of illegally possessing intoxicating liquor, Mayor Ferren declared Tuesday. He was unable to explain why Berg was not arrested when the liquor was found.

"And if Berg is arrested and brought into my court he will not be treated any different than any other prisoner. They all look alike to me, whether they are black, white, yellow or green," Mayor Ferren stated.

Commissioner Berg last night declared that he considered the search and seizure, which was made on a search warrant issued by Mayor Ferren, "a manifestation of spite, prejudice and personal malice" upon the part of Ferren, with whom he has not been on very friendly terms. Berg said he believed, and that he had been so advised by attorneys, that he was entirely within the law in possessing the liquor which was found in his cellar, and that he was not worried over the outcome of the happening.

"Mayor Ferren must think I'm a fool," he remarked in this connection.

Berg added that he had been informed by one of the agents that it was not a violation of the Crabb act to have wine in his home.

Mayor Ferren last night took exception to this statement, however, and asserted that it was contrary to the law to possess "anything intoxicating" whether it be beer, wine, whisky or what not.

NATION DRIFTING
TO SIMPLIFICATION
TO REDUCE WASTEProgram Seeks Elimination
Of Ten Billion Dollar
Waste In Industry.

Washington, May 8.—Outside of human faces, women's clothes and political opinions the United States is rapidly drifting to a nation of simplification and standardization.

Diversity and complexity are being cast into the discard in a nationwide production cost smashing campaign. R. H. Hudson, head of the simplified practices bureau of the department of commerce declared today.

Everything from cook stoves to choice cigars are included in the simplification program, which has for its object the elimination of the annual ten billion dollar waste in industry.

"Last year sufficient money to pay all federal, state and municipal taxes, to cover the retail cost of 2,330,000 automobiles sold, to provide money to operate them, and to pay for every house built in the United States in 1922, was wasted in the industries of this country," Hudson said.

"A big portion of that sum can be saved and the cost of staple commodities cut at least ten per cent by concentration of manufacturers on fewer varieties of products. A big agricultural implement concern, an automobile producer, a stove foundry, a shoe manufacturing and a chain of drug stores are among those who cut costs far more than ten per cent."

Warning Is Issued
Against Dumping
Debris Within City

Warning has been issued by city officials with regard to dumping of rubbish and debris from chicken houses in yards and close to homes of neighbors.

The warning follows receipt of numerous complaints from residents of the city that debris from stables and chicken houses has been placed in close proximity to their homes by neighbors and persons owning chickens and horses have been warned that such action is in violation of a city ordinance, and is punishable by a fine.

City officials have declared that this is the final warning and that all future offenders will be prosecuted.

Coming As Extra Feature

James A. Burns, founder of Oneida Institute in Kentucky and known on the lecture platform of "Burns of the Mountains," will deliver a lecture at the Methodist church Wednesday evening. This will be the closing number of the Methodist lyceum course, being an extra attraction given free to all holders of season tickets.

Burns, returning to his native land, realized that only through education, could the famous Kentucky feds be eliminated. With only 18 months of schooling he set about his task and without a dollar in the world, founded and built Oneida Institute.

Since 1914 he has been constantly before the public, having lectured in every state in the Union and practically every province in Canada. He resigned as president of Oneida a year ago in order that he might give more time to the platform.

The Methodists are planning to have another course next year and have selected some fine talent.

Two Liquor Raids

TWO recent events in liquor law en-
forcement in this city and county
have occasioned no small amount of
comment. The first one is of purely
local significance, that in which Con-
stable Ritchie arrested a Salem man
on a liquor charge and took him into
Mayor Ferren's court at East Pale-
stine. There was a time when that pro-
cedure was necessary in order to get
results of a lasting nature. Today it
is not necessary; in fact it is entirely
uncalled for, as Mayor Post and his
officers have made an exceptionally
good record in recent weeks. The
governor and the state prohibition
commissioner have insisted that there
be co-operation with the mayor and
his police officers. Taking Salem
prisoners to East Palestine does not
constitute co-operation or any form
of co-operation.

Ritchie is quoted as stating that he
adopted this course because he could
collect 25 per cent of the fine under
the East Palestine ordinance. No one
begrudges him the money if he can
get it legally, but there is no reason
why he should get it when it is im-
possible for the regular police officers
to collect for doing the same work.
For a constable or any other officer
of the law to take a case into another
court for the mere sake of getting his
"divvy" is nothing short of accepting
law enforcement as a mercenary act.
The city was robbed of its share of
the fine, but an officer of the law
collected just the same.

The raid on County Commissioner
Berg's home Monday has stirred up
comment throughout the county. Ac-
cording to the report of the officer
who conducted the search there was
plenty of evidence to warrant the raid.
But what prompted that raid? The
law states that a residence property
shall not be raided unless there is
sufficient evidence or suspicion to
warrant a search. There may have
been in this case, although The News
is not informed on that point. But
the fact that the warrant was issued
from Mayor Ferren's court immedi-
ately arouses the suspicion that spite
work played no small part in Mon-
day's raid. Mayor Ferren says that
he knew nothing of the plans for this
search until instructed by the state
prohibition commissioner to issue a
warrant. Without proof to the con-
trary The News is willing to give the
mayor the benefit of a doubt. But for
all the sincerity prompting that state-
ment, Mayor Ferren will have a hard
time convincing some people in the
county, in view of the recent quarrel
between Ferren and the county com-
missioners over the release of prison-
ers from the county jail. That little
"spat" may have had nothing to do
with Monday's raid, but there will be
some people who cannot be convinced
otherwise.

Raiding private residences never
has been and never will be a popular
part of liquor law enforcement. It is
true that liquor found in a home makes
the owner just as amenable to the law
as though the evidence were discover-
ed in a public cafe, but if liquor law
enforcement agents want to make pro-
hibition unpopular let them start in
to search residence properties. The
finding of so much liquor in Berg's
home apparently puts him in an un-
comfortable position and does not add
to any unpopularity which might be
developed by searching a private
dwelling. But such a move gives rise
to the possibility of unlimited activi-
ties in this direction without the
semblance of justification or reason.

Miss Orr's Work

IT is too often true that when some
one does a chosen work well, the
results are accepted as a matter of
course and the occasional commendation
that would prompt even better
efforts is not forthcoming. Such, per-
haps, is the case of Miss Grace P.
Orr, supervisor of music in the Salem
public schools. Salem people know
what a wonderful work she has been
doing in the schools and they appreci-
ate it more, perhaps, than they have
ever said. It is gratifying to the par-
ents of those children who are for-
tunate enough to be under her super-
vision to read the words of praise of

ferred voluntarily by Prof. Dykema,
head of the department of music in
Wisconsin university. Prof. Dykema
is a recognized authority in his field
and his flattering comment on Miss
Orr's ability never would have been
given had she not been worthy of it.

washing and ironing, and do not know
what real trouble is. My health is fine,
and I weigh 140 pounds. When I started
taking it I weighed 97 pounds. I gladly
recommend Lydia E. Pinkham's Vege-

fering from female trouble or is run
down. You may use this testimonial

question the merit of Lydia E. Pink-

School Boys Make Attempt To Free Hammer Murderer

Tegucigalpa, Honduras, May 8.—Galantry of the Latin-American and local police who have thwarted out under the flashing smile of "Mrs. Jose Carson"—now virtually identified as Clara Phillips, notorious Los Angeles murderess and cave woman—is causing some anxiety to the American minister, Franklin Morales.

Already a party of school boys have made one romantic attempt to liberate the suspected "hammer murderess" and Minister Morales wants the woman securely held against any second attempt before she is turned over to the California authorities.

"Mrs. Carson" and her fellow prisoner, "Mrs. R. M. Young" are attracting the attention of all classes. Two society girls, members of prominent families—called upon them in their quarters over police headquarters.

A New York newspaper has just arrived with a picture of Clara Phillips and the story of her arrest.

When the correspondent showed it to "Mrs. Carson" she made no comment.

"What is the fare from Amapapa (Honduras) to Los Angeles?" she asked, after looking at the story.

The picture, however, seemed to clinch the opinion of the local newspaper editors that the suspected woman is really Clara Phillips. One Tegucigalpa paper said: "The picture we now possess unfortunately identifies the woman held here as Clara Phillips. It is difficult to believe that such a charming woman is a criminal."

"Mrs. Carson" maintains her free and easy manner.

Economic Conditions Improved This Year

Cincinnati, May 8.—General economic conditions of the country showed a marked improvement over last year, Secretary Henry C. Wallace of the United States department of agriculture, told members of the American Agricultural association in session here last night.

Prices of cotton, wool, oats and butter were materially higher than last year, Secretary Wallace said. The greatest advance has been made in the textile cloth, he said, which is almost twice as high as a year ago and the next is corn, which is fifty per cent higher. The least favorable prospects are in the wheat states, the secretary said.

Officials' Sentence Upheld By Court

Columbus, May 8.—The two-year penitentiary sentence given to David J. Scott, former director of public safety of Youngstown, by the Mahoning county courts was affirmed by the state supreme court here today.

Scott was charged with soliciting and receiving a bribe from a man named Tomsky for protection from arrest for violation of the liquor laws.

Owing to the fact that cases listed for trial before Judge Moore today had been either dismissed, passed or settled, the jury was excused for the balance of the day by Judge Moore.

In court room No. 2, the H. C. Sparks Clay Co. of Tennessee, vs. John Sant and Son, East Liverpool, was placed on trial. The matter at issue was a settlement for some clay shipments made by the plaintiff.

WITNESS GOES

(Continued from first page.)
rived shortly after 9 o'clock Monday night and immediately went into conference with Chief Welch.

Repeated attempts to enter the office failed. The door was also barred to attorneys Stanley Denlinger and Worth A. Bailey, counsel employed by the father of Mills who came from Columbus to assist his son.

After the conference which ended about 2 o'clock this morning, Mills seemed to have vanished. His attorneys, who two hours before had threatened to start habeas corpus proceedings to prevent Mills' extradition to Illinois, had nothing to say except that "he'll sleep in a regular bed to night and we may ask for a writ Tuesday."

The last publicly known of Mills was last night when he was in his cell. This morning he is not in jail, and though Chief Welch will not admit it, the theory is that the young student is on his way to Chicago. It is believed Welch and the Illinois state's attorneys took Mills from a side door of the jail and spirited him to the station to take the train. Police Captain Marvin Galloway appeared ignorant of Mills' whereabouts, for he searched the corridors and cells of the jail, and then said this morning he knew nothing about the prisoner.

Electric Service Never "Soars" in Price!

Nearly all other commodities do. Look at sugar! Going up again after striking rock bottom. Every time you enter a store you find some other necessity rising in price after the recent slump. Some commodities have never really gotten back to normal since the war—probably never will.

But your rate for electric current remains the same—month in and month out—and this in spite of the mounting costs of material and labor which this company is constantly facing.

Think of "press the button" convenience any time—day or night! Yet your average daily current consumption costs less than the bottle of milk left at your doorstep!

RENNER BREWERY WILL BE CLOSED

Washington, May 8.—An order to cease operations will be issued against the Renner brewery of Youngstown by the federal prohibition enforcement department as a result of the analysis of beer samples recently taken when a truck belonging to the company was seized by prohibition enforcement officers.

The samples are officially described as showing "an excess" of the legal maximum of one-half of one per cent alcohol content allowed by the Volstead act.

The "cease operations" order will be telegraphed to State Prohibition Director Russell at Columbus by the federal department here. Russell will in turn notify Enforcement Officer Bence at Youngstown to close up the brewery temporarily.

The government then will set a date for a hearing to determine whether the order will be made permanent. The brewery will be required to show cause "why its permit to make near-beer shall not be revoked."

Why the Nation Demands Calumet

—because it has more than the ordinary leavening strength; it raises millions of bakings every day to a light perfectly baked perfection that cannot be equaled.

—because it contains white-of-egg—the vital element that gives the housewives protection against using a baking powder that has lost its original leavening strength. It assures light, tender, tasteful things every time you bake.

—because it is economical—pure, sure and wholesome.

That's why the sale of Calumet is over 150% greater than that of any other baking powder.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

For Economical Transportation

Comparison

There is no more certain method of determining value than by comparison.

The automobile buying public have judged the truly remarkable value in Chevrolet as the greatest automobile offered today.

This is the reason for Chevrolet popularity.

Chevrolet is recognized as the Standard of Automobile Value. Comparison has proved this.

Economical transportation is first consideration.

Comfortable riding, beautiful design and lasting service are Chevrolet achievements.

In the open passenger car, we offer the Roadster and Touring.

The closed models include Two-passenger Coupe, Sedan and Sedanette, with Fisher Bodies and Cord Tires as standard equipment.

In the commercial field, we offer the Superior Chassis and Light Delivery for loads under 1000 pounds.

The Utility Express Truck is for heavy hauling of one-ton or more, to meet 75 per cent of all transportation problems.

We will be pleased to demonstrate and show you these models. To avoid waiting we urge you to place your order for future delivery now.

Lisbon Notes

Pastor Is Recalled

Rev. J. C. Albright, pastor of the First Nazarine church of Lisbon, has been recalled to the pastorate by the congregation and will remain another year. He has been a hard working and enthusiastic pastor and the church under his ministry has grown in membership and usefulness.

Seek Training Camp Recruits

According to a report received here from Columbus the quota of Ohio for the training camp recruits at Camp Knox has not been filled and there is abundant room for a large registration. Parents of growing boys are requested to look up this training camp schedule and take advantage of the opportunity of securing for their boys a period of military training at the expense of the state.

The period for registration is nearing its close and prompt action is necessary to secure a place.

Seniors Win Meet

The Senior Class of the Lisbon High school won the inter-class meet Monday afternoon by the score 77 points. The Freshman class was second with 20 points, Juniors third with 17½ points and the Sophomores fourth with 5½ points.

Elkrun Grange Program

The next meeting of the Elkrun grange will be held on Saturday evening. All members are requested to

be on hand early. The program as arranged by F. P. Blair, lecturer, will consist of music, both instrumental and vocal, some speeches and a roll call that must be answered by a stunt, a story or a conundrum.

Chautauqua Comes Late

Lisbon will not be able to secure its regular chautauqua this year until

the first week in September. The Itadeliff chautauqua with whom the contract for this year was made has turned its contracts over to the Swathmore Chautauqua company, until the time mentioned above.

The Dance and the Fight in the Dark!

There were strange happenings nightly in the ruins of the old abbey where the strange family dwelt in a wagon. Soon these things were to end, the neighboring chateau would be burned and the nomads of the road start on the pilgrimage at which Marka should meet the great chief of all her people.

QUIMET WINNER IN GOLF TOURNEY

American Golfer Wins Second Round Match From Darwin.

Deal, England, May 8. — Francis Guimet blazed an additional bit of trail toward the British amateur golf championship today when he won his second round match from Bernard Darwin, of Woking, one of the most potential of the British entries. The score was 3-up and 2 to play, and Guimet, more serious and determined than he has ever appeared to be in a tournament on this side of the water, was master of the situation almost from the opening shot.

He lost the first hole because of a strong-armed approach but four beautiful, long and accurate tee shots on the second, third, fourth and fifth gave the Boston ace four holes in succession and a lead of 3-up at the end of the fifth. Darwin, who with Willie Hunter Colla Allmer and others, was one of the obscure players to rise to fame and fortune in the 1921 championship, never recovered the ground he lost during the American's streak of straight hitting.

County Officials To Inspect Willite Road

County Commissioners Berg, McNeel and Kerr, in company with County Engineer Kirk, have arranged to go to Uniontown, Pa., Wednesday as guests of the Willite Road Material company of East Liverpool to inspect some streets and roads in that city which have been made of this new road making material.

The Willite company has been trying to interest the county commissioners in this new material, claiming that it is cheaper and better than materials now in use.

For some time the commissioners have been receiving reports from different road jobs where this material is in use. They will be given a practical demonstration of its use and the manner in which it resists wear Wednesday.

GRIFFON
CLOTHES

Kuppenheimer —a word of assurance

Before a mirror, one suit may look like another. It is only months after a suit is bought and paid for that it shows its mettle. If a person is a tailoring expert he can, of course, tell the minute he looks at a model whether it will keep the faith. The average man, however, must buy on reputation. When the word "Griffon" is on the label, that's all the guarantee he requires.

Fifty years ago, perhaps, your grandfather bought a watch. Thick, elaborately ornamented and heavy in the pocket. Perhaps it has come down to you as an heirloom.

Keep the old watch for the memories that surround it, but don't carry it, it is out of date, too large and heavy, and besides you might lose it. Let us show you the new models, Excellent, Elegant, Hamiltons and Bulovas.
